violation of U.S. copyright laws and is strictly prohibited. It should further be understood that O&H designs and drawings are based on the use of O&H's approved and specified materials. The contractor shall be responsible for the selection of substitute materials that will not vary from O&H's warranty. To the best of our knowledge these plans are drawn to comply with owner's and/or builder's specifications, and any changes made on these plans are made by the owner, architect, builder's expense and responsibility. The contractor shall vary all dimensions in the architect's specifications and drawings, material specifications will be the preference. The contractor of the job must check all dimensions and other details prior to construction and be solely responsible thereafter. In case of any discrepancy between material specifications and drawings, material specifications will take precedence.
